

STEM Starts Early with VEX Go

Meet VEX GO. An affordable construction system that teaches the fundamentals of STEM through fun, hands-on activities that help young students perceive coding and engineering in a fun and positive way!

The Perfect STEM Solution for Elementary Schools

Inspiring

- Includes fun, collaborative, hands-on, minds-on activities that encourage all students to participate
- Helps students create a positive identity towards coding and engineering
- Students perceive and experience integrated STEM learning in the real-world

Approachable

- Little set up needed so students begin learning and having fun right away
- Affordable kits that fit any classroom's needs
- Integrated into any elementary classroom
- Minimal instructions needed before students can open VEX GO and begin

Creative

- Encourages students' natural inquisitiveness — young children are natural scientists and engineers
- Supports students to develop and share new insights as they work collaboratively
- Allows students to create and experience their own learning journey
- Describe and convey a process and explain cause and effect relationships
- Imagines new ways to create while identifying unique patterns and relationships

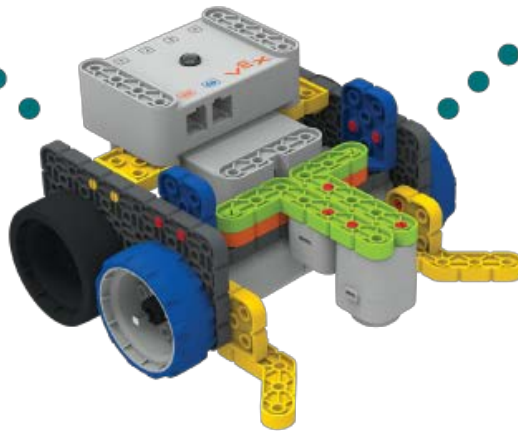

VEX GO Kit Includes:

• 280+ Plastic Pieces	• 1x Optical Sensor
• Astronaut Minifigure	• 1x Electromagnet
• VEX Hand Tool	• 1x LED Bumper Sensor
• 3x Smart Motors	• 1x Power Switch
• 1x Lithium-Ion Rechargeable Battery	• 1x Smart Brain

Build it

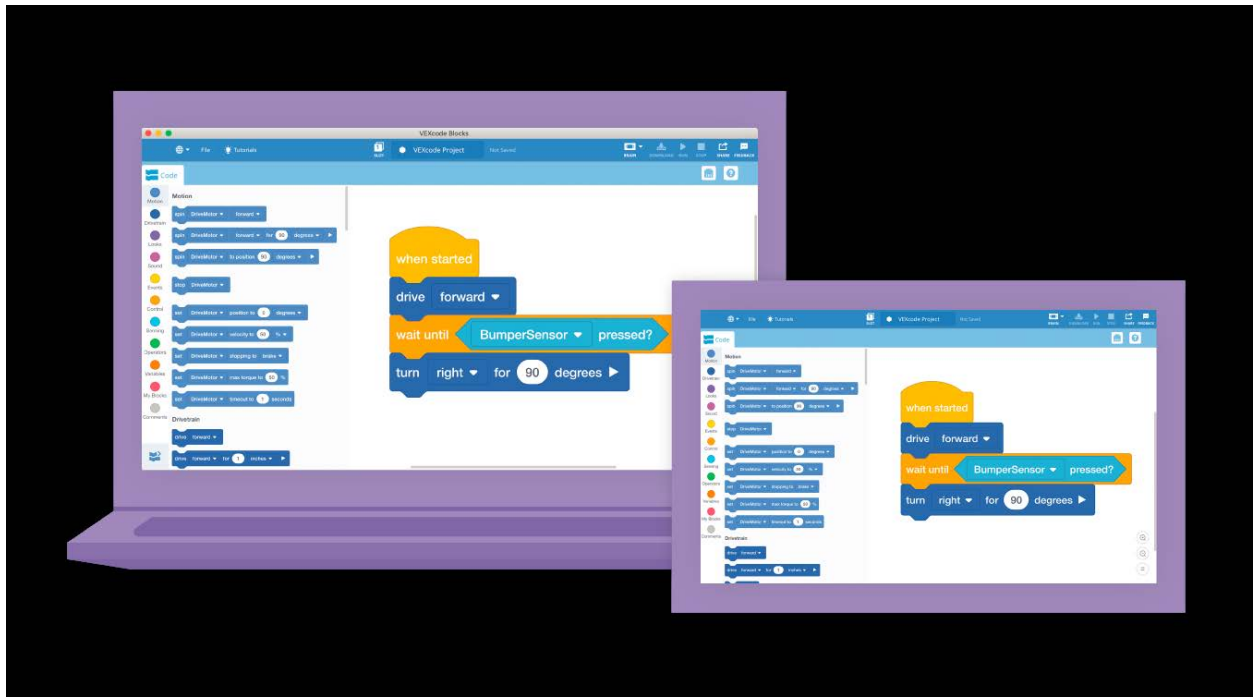

Power it

Code it

VEX GO Features

- Standards-aligned, 40 minute lessons
- Color-coded pieces so students can easily identify build parts
- Simplified builds so teachers can focus more on the lessons and not on the clean up
