

Keep students focused and on-task

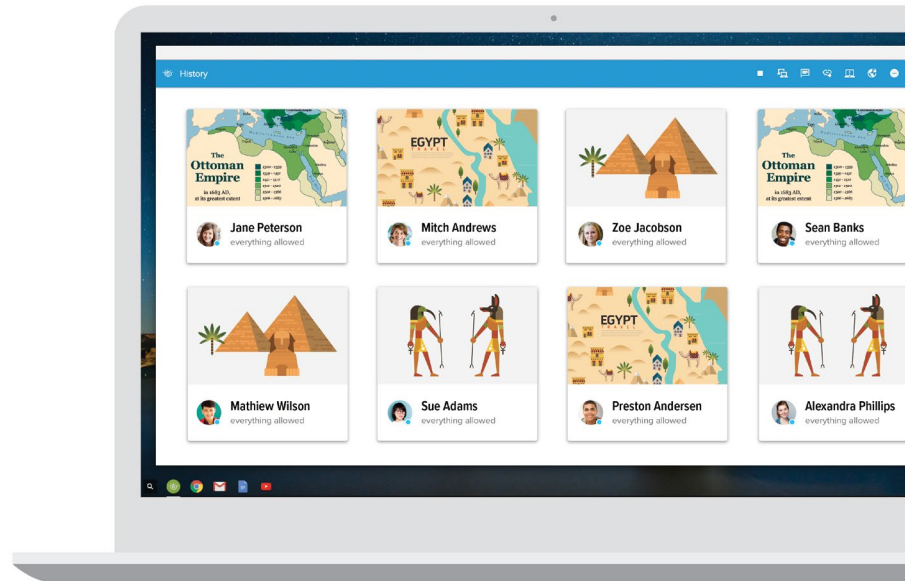

Monitor and modify behavior in the digital classroom. View thumbnail screenshots of student devices and guide activity with one click - keeping students safe.

Keep students on-task

-  Monitor activity
-  Block websites
-  Launch URLs

Easy-to-use

-  One-click functionality
-  Start-up or shut down devices
-  No hassle installation

“We love Vision, especially the personalized message students receive when we lock student screens.”

Alicia King - Teacher, Indian Creek Elementary School

Why educators choose Vision

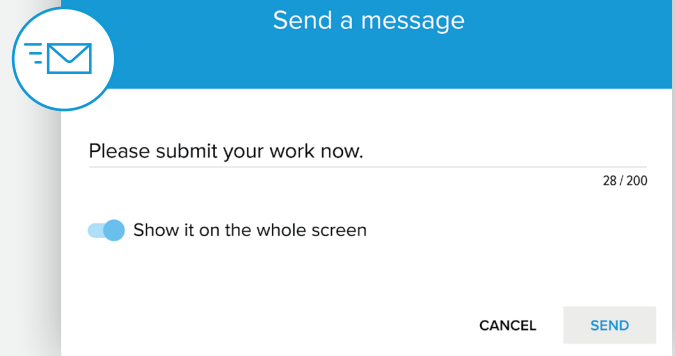

Keep students focused & on-task

With the push of a button, lock screens and keyboards, keeping students safe and on-task. Because social media can wait until class is over.

Save time & increase efficiencies

Guide student progress and provide assistance by sending a private message. Save time by launching apps or URLs on all student devices.

Enhance learning & collaboration

Facilitate learning by sharing your screen on every student device. Administer tests or share lessons. Showcase student work to the class.

6 million users in 105 countries

With 30 years of classroom management expertise, Vision is the trusted leader chosen by millions of educators in 105 countries to keep students on-task with easy-to-use functionality and no hassle installation.
